I've got you on a contact list we will use. Libby Faulk ([faulk.libby@epa.gov](mailto:faulk.libby@epa.gov)) will probably best contact tomorrow. She will be in Durango.

Thank you. Would it be ok to contact you tomorrow around 8 or 9 to see how everything is going? Thank you.

Hi Gabriel—received your message earlier regarding EPA sampling. EPA took samples from the Animas River today and will be analyzing them for a suite of metals and other contaminants of concern. I expect we will have results tomorrow.
